

Vacancies Assembly Leading Hand Positions

The Company are currently recruiting for Leading Hands within Assembly to provide support to the teams to achieve peak performance.

Purpose: Work with management to help workflow through the Cell including aspects of, but not exclusive to, Health & Safety, problem solving and fix issues, reducing scrap and recommending any training needs. To support improvement project team with process knowledge.

Skills and Experience required:

- A Math & English based GCSE, or equivalent qualification, would be preferable.
- Working with problem solving and trouble – shooting techniques.
- Ability to use initiative.

Key Role Requirements:

- Ensure adherence to Health & Safety policy and procedures.
- Providing support to team to achieve peak performance.
- Play a pivotal role in helping individual processes for Assembly, eliminating delays on throughput time.
- Provide training to new employees ensuring that process and part knowledge is passed on and identify any training needs in the cell.
- Offering first line problem solving.
- Provide support to the Quality Team for the 8D process.
- Assist hands on when needed to ensure continuity of production.
